Laboratory Evaluations Procedure:

Laboratory evaluations are considered 40% towards the final evaluation.

Weekly laboratory evaluation is 10 marks, averaged over the number of weeks laboratory evaluation is planned and finalized to 10marks.

Mid-sem laboratory evaluation is scheduled on 25th September 2019

One random program is evaluated to 15Marks: 5 marks towards correctness of the program, 5 marks towards execution and 5 marks towards viva-voce.

Mini-project proposal evaluation: 10 Marks: 5 marks towards proposal submission and 5 marks towards problems statement and project description

End-sem evaluation of Mini project: 25 Marks: 10 marks towards final report; 10 marks towards presentation and 5 marks towards novelty.

In summary:

Weekly evaluation	:	10 Marks
Mid-sem evaluation	:	25 Marks
End-sem evaluation	:	25 Marks
<hr/>		
Total	:	60 Marks

This 60 Marks is used for 40% of the course evaluation.

Note: you are allowed to submit the observations until 12am of the laboratory day which is considered as in-time submission. Late submissions are allowed until the next laboratory day and evaluated for less marks. Any submission beyond this period are not considered. If your evaluator is not present or unable to complete evaluation within the lab time, his evaluation beyond the date is not considered as late submission. Students are requested to submit the programs and observations as per the

schedule. Evaluation marks may vary based on the evaluator, hence you are requested for no cross-comparisons and the marks given by your evaluator cannot be questioned. If your evaluation marks are missing due to late submission or any such reasons can be negotiated. Mini-project guidelines will be announced soon.

The students are assigned weekly evaluation as follows:

171557IT101 to 171718IT114 (neelimabayyapu@gmail.com)	:	Dr. B. Neelima
171454IT115. To 171292IT128 (bhura.anusha@gmail.com)	:	Ms. Anusha Bhura
171335IT129. To 171069IT143 (rajatsinghdeepak@gmail.com)	:	Mr. Rajat
171331IT145. To 171096IT204 (nagaraj21.naik@gmail.com)	:	Mr. Nagaraj
171273IT205 to 171251IT218 (dr.srisavithadevi@gmail.com)	:	Ms. Sri Savitha Devi
171371IT219 to 171645IT231 (anusha.rms90@gmail.com)	:	Ms. Anusha
171570IT232. To 171451IT242 (satishyc@hotmail.com)	:	Mr. Satish
171570IT243 To 171451IT253 (smsujatha23@gmail.com)	:	Mr. Sujatha

For weekly assignments, the students are requested to create a folder with their registration number and program name as prog-name-concept.c. For example, if you are working on dot product and testing the critical section of openMP synchronization construct, the name could be dot-product-critical-section.c.

The students need to submit the snapshot of the executions from the folder created with their registration number and need to submit to the evaluator and course

instructor (emails are given above). Any observations such as performance evaluations and behavior can be submitted in a separate file. The students may also submit the source files for verification. This needs to be submitted as one email per lab at the end of the lab, before leaving the laboratory with a subject PC-LAB-OBSERVATION-DD-MM-YYYY-REG.Number-Name. You may keep an observation book for your reference optionally.
